

Has a family member, loved one, or someone you support been under an **Assisted Outpatient Treatment (AOT)** order, also known as Kendra's Law, in the state of **New York**? We'd like to hear your voice!

A team of evaluators is doing an independent study to understand experiences of AOT in New York State. We are trying to learn more about how people end up on AOT and AOT's impact on people and their loved ones.

We will be doing one-time interviews by phone or Zoom.

The team is made up of people from the Human Services Research Institute and the University of Pittsburgh. The team includes people with lived experience with mental health systems. The study is sponsored and funded by the New York State Office of Mental Health.

Participants will be paid \$50

Who can participate?

Eligible participants must be

- Family members, loved ones, or supporters of people under AOT orders in New York State currently OR in the past AND
- At least 18 years old
